EXPERIENCE

Software Programming Internship
Trylogic software solutions

December 2023 - June 2024

Trivandrum, India

- The DDUGKY software programming internship offers participants the opportunity to enhance their programming skills, focusing on relevant technologies and languages used in the industry.
- Interns get hands-on experience by working on live projects, gaining practical knowledge that can be applied in professional settings
- The internship provides exposure to the software development industry, allowing interns to understand the dynamics of working in a professional environment and building networks with industry professionals.
